10 evidence-based practices to support all your seniors to complete their financial aid for college applications

OCTOBER 2020 – JUNE 2021

Extensive research shows that high schools can make a big difference in helping low-income, immigrant, and first-generation college hopefuls complete the FAFSA and other state financial aid applications. With the reality of remote and in-person learning this year, targeted support from schools to help students and families complete their financial aid applications is more important than ever.

In this Toolkit, you’ll find 10 evidence-based best practices your school can use to support all eligible seniors and their families to complete their FAFSA, NYS Application for TAP, and NYS DREAM Act forms. You can find the Toolkit materials listed in each step at https://newyork.edtrust.org/fafsa-toolkit/.

Please note that completing these applications often requires follow-up after a student has submitted their applications, including timely responses to verification requests from financial aid offices. We’ve included reminders about both submission and follow-up in the strategies below.

1. HOLD A VIRTUAL OR IN-PERSON FINANCIAL AID FOR COLLEGE COMPLETION NIGHT

Hold a virtual or in-person school wide financial aid for college completion night in partnership with a community-based organization (CBO) that has trusted relationships with students and their families. It may be particularly helpful to partner with a CBO that has expertise supporting students who are undocumented with college access. Trained school staff should be available to support students and families as they complete their FAFSA, NYS Application for TAP, and NYS DREAM Act forms and respond to verification requests. Schools should determine which students do not participate in an in-person or virtual event and follow up with them individually.

IN-PERSON

At the event, students and families should have access to computers and internet, as well as counselors and others, to help complete their FAFSA, NYS Application for TAP, and NYS DREAM Act forms and respond to verification requests. It is often helpful to hold your event at the same time as another mandatory event — such as senior night — to ensure families can prioritize attendance. Schools should follow CDC guidelines regarding health and safety protocols for holding in-person events during the coronavirus pandemic.
REMOTE
Send seniors and their families a link to a Zoom or other virtual meeting room. Record the event so that students and families that may not have access to internet or smart devices at the time of the event can still view it.

BOTH
It is encouraged, if your school is on a hybrid model, to host the event both in person and online so that multiple avenues are used for students to access the content.

TIMELINE – It is best to hold the event as early as possible, typically in November. You should also consider holding a second event in late January as students are returning for the second semester. It is important for students to complete the applications as early as possible to give them the best chance for the most aid.

Publicize these office hours, and include personalized messages to each high school senior by the end of October.

IN-PERSON
During office hours, students and families should have access to counselors and other trained staff who can answer questions as well as help complete their FAFSA, NYS Application for TAP, and NYS DREAM Act forms and respond to verification requests.

REMOTE
Create a virtual meeting room and keep the link the same throughout the year so it is more easily accessible to students and families. Students and families should be able to speak with a counselor and other trained staff, including in private breakout rooms.

TIMELINE – Hold office hours at least once per month from October – June.
